PROFESSIONAL SUMMARY

Backend Developer with extensive experience in architecting scalable distributed systems and high-performance cloud-native applications. Proficient in Python, FastAPI, and Microservices, with a strong focus on Event-Driven Architecture, GCP server management, and robust API development. Skilled in Prompt Engineering and integrating Generative AI (LLMs, RAG) into production workflows while managing containerized environments using Docker and Kubernetes. Dedicated to writing modular, maintainable code and optimizing complex data pipelines within high-demand infrastructures.

TECHNICAL SKILLS

- **Languages:** Python, SQL.
- **AI & Generative AI:** Prompt Engineering, LLM (Large Language Models), LangChain, LangGraph, RAG (Retrieval-Augmented Generation), NLP, Deep Learning.
- **Frameworks & Libraries:** Django, Flask, FastAPI, TensorFlow, Keras, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib.
- **Databases & Tools:** Apache Kafka, MySQL, MongoDB, Firebase, Git, Postman, VS Code, JIRA.
- **DevOps & Cloud:** GCP (Compute Engine, Cloud Run), Docker, Kubernetes, CI/CD, AWS, Nginx.
- **Key Concepts:** Microservices Architecture, RESTful API Development, SDLC, Agile, EDA.

PROFESSIONAL EXPERIENCE

Software Engineer L3 | **Connecting Points Tech** (Onsite - Sahibzada Ajit Singh Nagar, Punjab)
Sept 2025 – Present

- Engineered efficient backend functions using Python and Firebase, resulting in a 20% reduction in API response times.
- Developed and deployed Microservices to ensure a modular, scalable, and high-performance backend architecture.
- Collaborated on backend development using Flask and FastAPI for building and integrating RESTful APIs.

Software Developer Intern | **Concientech IT Solution** (Onsite - Haridwar, Uttarakhand)
June 2025 – Sept 2025

- Designed scalable REST APIs and optimized MongoDB schemas, handling 200+ concurrent users with 99.9% uptime.
- Developed Angular 17-based UI components and integrated LLM-powered chatbots for conversational workflows.
- Focused on full-stack development utilizing Python and Django.

Web Developer Intern | **GAOTek Inc.**, New York (Remote)
July 2024 – Oct 2024

- Built and maintained website modules using WordPress and React while collaborating with international teams.
- Supported digital marketing initiatives and earned a Digital Marketing Certification.

MAJOR PROJECTS

AI Interviewer Platform | Concientech IT Solutions

- Developed an AI-powered platform using NLP and LLMs to conduct mock interviews and provide candidate scoring.
- Implemented real-time question generation and sentiment analysis features.
- Designed scalable backend APIs with Python and Django integrated with an Angular frontend.

Cash Management System (REATIV) | Connecting Point Tech

- Implemented backend logic for core banking concepts including intraday positions, reconciliation, and liquidity monitoring.
- Worked on a banking-focused cash management system to monitor cash positions, bank balances, and liquidity.
- Developed and integrated RESTful APIs for bank data aggregation, balance tracking, and financial reporting.
- Integrated Firebase Database for real-time updates and secure data storage.

Event-Driven Product Management Microservice Platform (**TemporalAI) | Github Link ↗**

- Designed and developed a full-stack, event-driven CRUD platform using React (Vite) for a premium responsive dashboard and FastAPI for a modular backend.
- Integrated Firebase Firestore for scalable data management and Apache Kafka for real-time event streaming across microservices.
- Containerized the entire application suite using Docker Compose to ensure reliable, unified deployments.

EDUCATION

Master of Computer Applications | 7.6 CGPA — Aug, 2023 - Jun, 2025
Graphic Era Hill University — Dehradun, Uttarakhand

Bachelor of Science | 71.00% — Jul, 2020 – Jun,2023
VBS Purvanchal University — Jaunpur, Uttar Pradesh

CERTIFICATIONS & ACHIEVEMENTS

- **Google AI Essentials:** Learned AI fundamentals, ML basics, and responsible AI practices.
- **Microsoft Data Science Career Path:** Built projects using Python, SQL, and Azure for data science.
- **Virtual Internships:** Completed programs with Deloitte, Accenture, Tata Group, and British Airways via Forage.
- **Technical Training:** Certified in Linux & SQL (Coursera) and Digital Marketing (GAOTek Inc.).

SOFT SKILLS & LANGUAGES

- **Interpersonal Skills:** Problem-solving, Team Collaboration, Adaptability.
- **Management:** Agile Methodology, Project Management, Technical Documentation.
- **Languages:** English (Professional), Hindi (Native).
